## **DETAILED ACTION**

Claims 1-20 are pending in the instant application.

### ***Election/Restrictions***

Applicant's election with traverse of the compound described in Example 11 of the specification in the reply filed on May 24, 2006 is acknowledged.

Applicant's arguments have been considered, but were not found to be persuasive.

The requirement is still deemed proper and is therefore made FINAL.

### ***Priority***

The claim to priority to US Serial Number 60/396,782 has been granted in the instant application.

### ***Information Disclosure Statement***

The Information Disclosure Statement filed on February 23, 2004 has been considered fully by the Examiner.

### ***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:  
It does not identify the citizenship of each inventor.

Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in this action. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply

in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Hsiang-Ning Sun on June 27, 2006.

The application has been amended as follows:

See attached claims.

### ***Reasons for Allowance***

The instant invention is drawn to compounds of the formula:

with substitutions as defined.

The closest prior art teaches a compound of the formula:

but does not teach or adequately suggest the attachment of a fullerene to the chemical structure. Therefore, claims 1-6 and 10-20 are allowed.
